

COLORADO SCHOOL OF MINES

RESEARCH INTEGRITY & SECURITY

RESEARCH EXCELLENCE CONSISTENT WITH MINES' VALUES

Research Integrity and Security is part of the Colorado School of Mines Office of Research and Technology Transfer and works with students, faculty, scientific colleagues to uphold the security and integrity of Mines research.

Mines prides itself not only on its robust and diverse research portfolio but also on its approach to research. Mines is dedicated to maintaining the highest standards in research conduct and reporting to protect the integrity of Mines research and national security.

Please visit Mines Research Integrity and Security page for more information at research.mines.edu/research-integrity/

Research Integrity and Security

RESEARCH INTEGRITY & SECURITY IS A RESOURCE FOR THE FOLLOWING CONCERNS:

Export Controls – screen potential partners, prevent unauthorized release of technology

Undue Foreign Influence – prevent unfair competition in the pursuit of knowledge

Research Conflicts of Interest – full disclosures & reviews, including international commitments

Operations Security – appropriate protections around restricted research

Research Excellence – education and training for the ethical conduct of research

Research Misconduct Investigations – upholding Mines values by investigating and ethical breach

Human Research Protections – reviewing every protocol to ensure protection of participants

Research Safety Culture – transform Mines research culture – all share responsibility for safety
